Part 7 — Reading Comprehension

Questions 21–23 refer to the following report.

Aster Procurement — Weekly Status With the manufacturing budget tightened, the operations team has worked to source Aria's components as cheaply as possible. For each part, at least three suppliers were asked for a quotation, and the lowest qualified bid was accepted. By ordering in bulk, the team secured discounts of up to 25 percent. A full inventory check revealed, however, that several critical components are out of stock and now on backorder, with no firm delivery date from the main supplier.

21. How did the team keep component costs low? (A) By paying retail prices (B) By buying from a single vendor (C) By ordering in bulk to earn discounts (D) By skipping the inventory check
22. What problem did the inventory check reveal? (A) Prices had risen (B) The catalog was outdated (C) The warehouse was full (D) Critical components are on backorder
23. The word "source" in the report is closest in meaning to (A) sell (B) obtain (C) return (D) count

Questions 24–26 refer to the following article.

Marlowe Business Journal — Supply Snag Hits Aster Aster Home Technologies has hit an unexpected snag in its race to launch the Aria line. The company's main component supplier has warned that it cannot meet the agreed delivery schedule, leaving several key parts on backorder. Because Aster's budget is already stretched thin and its Halston launch date is fixed, managers must now find an alternative source quickly. Analysts warn that rushing to a new, unproven supplier carries its own risks — parts bought in haste are not always reliable.

24. What is the main problem described in the article? (A) The main supplier cannot deliver on time (B) The launch was cancelled (C) Component prices doubled overnight (D) The budget was increased
25. Why must Aster act quickly? (A) Its stock is too large (B) A discount is ending (C) Its Halston launch date is fixed (D) A new catalog is due
26. What risk do analysts warn about? (A) Prices will fall sharply (B) The warehouse will overflow (C) Customers will complain (D) Parts bought in haste may be unreliable
